About me

Alaric is a final year MD/PhD student at Washington University in St. Louis. He completed his Computational and Systems Biology dissertation research on Microbial Ecology and antibiotic resistance genes in the Dantas Lab. In Fall 2021, Alaric will apply to Pediatrics residencies, with the intention of specializing in Infectious Diseases via a Physician Scientist Training Program. After finishing his training, Alaric hopes to lead his own research group studying microbial communities and host-pathogen interactions.
